

ANTI-SCALE CARTRIDGE

For treatment of hard water - to prevent scale deposits in domestic and industrial systems.

The cartridge is filled with polyphosphate salts and will fit in a standard 10" housing.

Design flowrate: 12 litres/minute

Maximum continuous operating temperature: 40°C

Suitable for a wide range of applications.

We can also supply replacement polyphosphate crystals to refill the cartridge.

Sizes available:

Filter diameter: standard

Filter length: 10"
